# BADAL KUMAR SAHU

**Senior Business & Data Analyst • Generative AI & Autonomous AI Agents • Cloud Architectures (GCP/AWS)**

Bhubaneswar, India • badalsahu200ns@gmail.com • linkedin.com/in/badalsahu200ns • github.com/badalsahu200ns-png • badalsahu200ns-png.github.io

## PROFESSIONAL SUMMARY

Results-driven Data Analyst, Generative AI Specialist, and AI Software Developer with 5+ years of frontline business experience spanning PropTech, Travel-tech, BFSI, and Telecom. Proven track record of scaling commercial portfolios by 30%, coaching 20+ professionals, and sustaining 130% KPI achievement. Specializes in converting petabyte-scale data into automated Gemini LLM agents, RAG vector pipelines, and executive BI dashboards.

## CORE COMPETENCIES & DOMAIN SPECIALIZATION

- **Business Analytics & Forecasting:** Trend analysis & KPI metrics
- **Petabyte Cloud Warehousing:** BigQuery SQL & Dataform ETL
- **Operations Optimization:** Lean process engineering & Six Sigma
- **Autonomous AI Multi-Agents:** Tool calling, RAG & reasoning systems
- **Product Thinking & Strategy:** ROI tracking, roadmap & stakeholder advisory
- **Enterprise Infrastructure:** Google Cloud Platform, AWS, Docker microservices

## TECHNICAL SKILLS MATRIX

**Data Analytics & BI:** SQL (Advanced Window Functions, CTEs), Google BigQuery, Power BI, Tableau, Advanced Excel (XLOOKUP, Power Pivot), EDA, KPI Dashboards, MIS Automation, Statistical Modeling

**Artificial Intelligence & GenAI:** Gemini API, Anthropic Claude, Prompt Engineering, RAG Systems, Multi-Agent Architecture, Vector Search & Embeddings, Google AI Studio, LLM Orchestration

**Programming & Software:** Python (Pandas, NumPy, Matplotlib, Scikit-learn), Core Java, TypeScript, React, Streamlit, FastAPI, Git, GitHub CI/CD, Salesforce CRM

**Cloud Platforms & Databases:** Google Cloud Platform (BigQuery, Cloud Run, Cloud Storage, IAM), Amazon Web Services (EC2, S3, RDS, IAM, VPC), Docker, Distributed Systems

## PROFESSIONAL EXPERIENCE (5+ YEARS ENTERPRISE TRACK RECORD)

**Business Manager** — Magicbricks
Apr 2025 – Mar 2026 | Bhubaneswar, Odisha

**Key Impact: Drove 30% business growth across real estate developer portfolios by identifying market liquidity pockets.**

- Identified market liquidity pockets and analyzed supply-demand elasticity across major developer segments.
- Managed cross-functional stakeholder alignments between digital product teams and tier-1 enterprise clients.
- Utilized property search telemetry and churn indicators to design personalized retention campaigns.

**Key Account Manager** — redBus India Pvt Ltd
Mar 2024 – Mar 2025 | India

**Key Impact: Achieved 130% KPI performance by optimizing inventory availability and route pricing strategies.**

- Led demand forecasting analysis across major intercity transit corridors during seasonal demand spikes.
- Negotiated high-value strategic partnerships with enterprise bus fleet operators.
- Optimized inventory availability, route fill rates, and dynamic route pricing strategies.

## PROFESSIONAL EXPERIENCE (CONTINUED)

**JBA Sales Manager** — Reliance PPM Services Ltd — Feb 2022 – Feb 2024 | India

**Key Impact: Built and managed high-performance team of 20+ professionals while scaling territory revenue.**

- Led and mentored high-performing sales force of 20+ professionals, driving sustained market penetration.
- Established disciplined performance tracking frameworks using sales data and pipeline conversion metrics.
- Expanded enterprise channel footprint and structured scalable onboarding playbooks.

**Business Trainee – IndusInd Bank Partnership** — ICICI Prudential Life Insurance — Sep 2020 – Jan 2022 | India

**Key Impact: Achieved 91% renewal collection improvement through structured customer engagement workflows.**

- Achieved 91% renewal collection improvement through structured customer engagement workflows.
- Collaborated closely with IndusInd Bank retail branch leaders to drive wealth protection penetration.
- Analyzed customer portfolio risk categories to match customized insurance solutions.

## SELECTED FEATURED PROJECTS (AI, CLOUD & ANALYTICS)

**BigQuery Data Agent (Autonomous AI Multi-Agent)** | Python, Gemini API, BigQuery SQL, AGY SDK, FastAPI — GitHub

- Architected autonomous multi-agent system translating complex natural language requests into production-grade BigQuery SQL with schema discovery and automated error correction.
- Engineered intelligent fallback strategies and automated validation test suites achieving 99.4% execution accuracy and sub-second metadata latency.

**ReflectAI — Intelligent AI Reflection & Sentiment Journal** | Gemini 1.5 Pro, Vector Search, Python, React, Tailwind CSS — Live App • GitHub

- Built multimodal reflective journal integrating Gemini 1.5 Pro with vector embeddings for semantic recall across chronological user reflections.
- Implemented automated cognitive trend analysis, weekly sentiment velocity mapping, and private client-side encryption.

**Coffee Shop Monitor — Full-Stack Telemetry System** | Python, FastAPI, Real-time WebSockets, TypeScript, SQLite — GitHub

- Developed high-throughput operational telemetry dashboard monitoring multi-point retail queue velocity, stock thresholds, and transaction speed.
- Engineered automated inventory depletion alerts, peak-hour customer flow predictive modeling, and live operational analytics charts.

**Seasonal Agriculture Performance Analytics** | Python, Pandas, Matplotlib, Statistical Modeling, Seaborn — GitHub

- Performed multi-decade agrarian yield modeling correlating rainfall variability, soil mineral parameters, and harvest price indices.
- Constructed predictive yield variance dashboards identifying key vulnerability zones to assist institutional agricultural planning.

## CURRENT INTERNSHIPS & APPLIED ANALYTICS PROGRAMS

**AWS Cloud Computing Intern** — EWB EDU TECH PRIVATE LIMITED — September 2026 — Present | Virtual • Active Engagement

- Configured and managed core AWS cloud infrastructure components spanning compute, storage, and networking.
- Engineered secure Identity and Access Management (IAM) policies, roles, and resource access controls.
- Deployed relational database instances with Amazon RDS and architected isolated virtual networks with Amazon VPC.
- Explored serverless event-driven architectures with AWS Lambda and instrumented observability with Amazon CloudWatch.

**Data Analytics Intern** — Edunet Foundation / Vodafone Idea Foundation — Aug 2026 – Present | Virtual • Active Engagement

- Engineered structured data pipelines and exploratory analytics models for telecom impact assessment.
- Formulated dashboards tracking regional digital literacy initiatives and student engagement trends.
- Applied predictive analysis on telemetry indicators to boost retention rates across community programs.

## EDUCATION & ACADEMIC QUALIFICATIONS

**Master of Computer Applications (MCA)** — Amity University — Jul 2025 – Present | Pursuing

**Core Curriculum:** Distributed Systems, Advanced Database Management Systems, Data Structures & Algorithms, Cloud Architectures, Machine Learning & AI

**Post Graduate Diploma in Management (PGDM) (undefined)** — Institute of Management and Information Science, Bhubaneswar — Completed | Completed • First Class

**Core Curriculum:** Quantitative Business Analytics, Strategic Financial Management, Market Economics, Sales & Distribution Strategy, Operational Leadership

**Bachelor of Commerce (B.Com) (undefined)** — J.R.N. Rajasthan Vidyapeeth University — Completed | Completed • Honours

**Core Curriculum:** Corporate Accounting, Business Statistics, Economic Theory, Quantitative Business Mathematics, Commercial Law

## VERIFIED INDUSTRY CERTIFICATIONS & CREDENTIALS

### Cloud & Artificial Intelligence Engineering:

**Oracle:** Agentic AI Certified Foundations Associate (ID: 330350216AAI26OFA)

**Google Cloud:** Configure Service Accounts & IAM Roles (ID: 28873618)

**Google Cloud:** The Basics of Google Cloud Compute Skill Badge

**Google Cloud:** Prompt Design in Vertex AI & Gemini Foundations

**Anthropic:** AI Fluency Framework & Foundations (ID: 9hn4e7kttj9r)

**Anthropic:** Claude 101 Certification (ID: 7yiy97wnu58o)

### Data Analytics, Quality Management & Security:

**OneRoadmap:** Data Analyst Certification (ID: CERT-F821520B)

**OneRoadmap:** Excel Certification (ID: CERT-536F4B9F)

**Kennesaw State Univ:** Six Sigma Principles (ID: 7JJSRPCE9FS9)

**Cisco:** Introduction to Cybersecurity

### Business Analytics & Strategic Consulting Simulations:

**Coursera / ESSEC:** Marketing Analytics (ID: E58C37P3BFQ3)

**Coursera / Wharton:** Customer Analytics (ID: WRUELYD2V6BP)

**Forage / Deloitte:** Technology & Data Analytics Simulation

**Forage / BCG:** Strategy Consulting Virtual Experience

## TECHNICAL DOMAIN INTERESTS & GOVERNANCE

Autonomous Multi-Agent AI Architectures • Petabyte-Scale Cloud Data Pipelines • Real-Time Streaming Analytics • Enterprise Data Governance • Responsible AI System Design • Cross-Functional Analytics Advisory

**Live Credential Verification Registry:** The complete interactive repository containing 40+ verified industry credential records, project repositories, interactive live systems, and academic certifications is hosted online at: https://badalsahu200ns-png.github.io/
