# BADAL KUMAR SAHU

Business Analytics · Generative AI · Data Analytics · AI Products · Google Cloud

**Location:** Bhubaneswar, India • **Email:** badalsahu200ns@gmail.com • **LinkedIn:** linkedin.com/in/badalsahu200ns •

**GitHub:** github.com/badalsahu200ns-png • **Portfolio:** badalsahu200ns-png.github.io

## PROFESSIONAL SUMMARY

Results-driven Data Analyst, Generative AI Specialist, and Business Manager with 5+ years of frontline business experience spanning PropTech, Travel-tech, BFSI, and Telecom. Proven track record of scaling commercial developer portfolios by 30%, coaching and leading 20+ professionals, and sustaining 130% KPI achievement. Specializes in translating complex commercial requirements into petabyte-scale Google BigQuery analytics pipelines, automated Gemini LLM agents, RAG vector architectures, and executive BI dashboards.

## PROFESSIONAL EXPERIENCE (5+ YEARS)

**Business Manager** — Magicbricks — Apr 2025 – Mar 2026 | Bhubaneswar, Odisha

**Impact: Drove 30% business growth across real estate developer portfolios by identifying market liquidity pockets.**

- Identified market liquidity pockets and analyzed supply-demand elasticity across tier-1 real estate developer segments.
- Managed cross-functional stakeholder alignments between digital product engineering teams and enterprise commercial clients.
- Utilized property search behavioral telemetry and churn indicators to design high-conversion personalized retention campaigns.

**Key Account Manager** — redBus India Pvt Ltd — Mar 2024 – Mar 2025 | India

**Impact: Achieved 130% KPI performance by optimizing inventory availability and route pricing strategies.**

- Led predictive demand forecasting analysis across major intercity transit corridors during seasonal high-volume demand spikes.
- Negotiated high-value strategic partnerships with enterprise bus fleet operators and mobility ecosystem partners.
- Optimized inventory availability, route fill rates, and dynamic route pricing models to maximize occupancy and revenue.

**JBA Sales Manager** — Reliance PPM Services Ltd — Feb 2022 – Feb 2024 | India

**Impact: Built, coached, and led a high-performance team of 20+ professionals while scaling territory revenue.**

- Led, mentored, and coached a sales force of 20+ professionals, driving sustained market penetration and territory expansion.
- Established disciplined performance tracking frameworks utilizing sales pipeline analytics and conversion rate metrics.
- Expanded enterprise channel footprint and authored structured operational playbooks for rapid representative onboarding.

**Business Trainee – IndusInd Bank Partnership** — ICICI Prudential Life Insurance — Sep 2020 – Jan 2022 | India

**Impact: Achieved 91% renewal collection improvement through structured portfolio risk engagement.**

- Achieved 91% renewal collection rate through structured customer engagement workflows and churn mitigation analytics.
- Collaborated with IndusInd Bank retail branch leaders to drive wealth protection penetration across priority retail customer accounts.
- Analyzed customer portfolio risk categories to match customized insurance and investment solutions.

## CURRENT INTERNSHIPS & APPLIED ANALYTICS PROGRAMS

**AWS Cloud Computing Intern** — EWB EDU TECH PRIVATE LIMITED (AICTE Portal) Sep 2026 – Present | Virtual • Ongoing

- Configuring and managing AWS cloud infrastructure spanning EC2 compute, S3 storage, IAM security policies, and VPC networking.
- Deploying relational database instances with Amazon RDS and instrumenting serverless event pipelines with AWS Lambda & CloudWatch.

**Data Analytics Intern** — Edunet Foundation / Vodafone Idea Foundation Aug 2026 – Present | Remote • Ongoing

- Engineered structured data pipelines, Power BI dashboards, and exploratory analytics models for telecom social impact assessment.
- Applied predictive analytics on telemetry indicators to improve engagement and retention tracking across regional programs.

**Data Analytics Training & Internship** — Neo Skillz Aug 2026 – Present | Remote • Ongoing

- Spearheading modern analytics implementations with focus on end-to-end data transformation pipelines and Tableau analytical dashboards.
- Pioneered automated prompt engineering workflows and RAG vector search pipelines for rapid business insight extraction.

## SELECTED PROJECTS (AI, CLOUD & ANALYTICS)

**BigQuery Data Agent – Natural Language to Enterprise Analytics** | Google BigQuery, Cloud Run, SQL Synthesis, LLM Agents Live System • GitHub

- Architected enterprise data intelligence system enabling stakeholders to query petabyte-scale BigQuery datasets using plain English.
- Generates verified SQL queries, visual analytical charts, and actionable executive summaries with sub-3s query execution latency.

**ReflectAI – Gemini Cognitive Reflection Journal** | Google AI Studio, Gemini, Cloud Run, Firestore, Streamlit Live System • GitHub

- Built intelligent journaling application leveraging Gemini and Cloud Run to generate cognitive reflections and semantic theme clustering.
- Engineered vector retrieval and real-time behavioral insights stored persistently in Google Cloud Firestore.

**Coffee Shop Monitor & Barista AI Agent – Operational Telemetry** | Google Cloud Run, FastAPI, Real-Time Telemetry Live System • GitHub

- Engineered operations monitor and conversational agent tracking order queues, barista station throughput, and bottleneck anomalies.

**Seasonal Agriculture Performance Analysis** | Python, Pandas, Matplotlib, Seaborn, Jupyter GitHub

- Executed empirical data analysis across Kharif, Rabi, and Zaid seasons analyzing crop yield, production, profitability, and climate correlations.

## TECHNICAL SKILLS & CORE COMPETENCIES

**Data Analytics & BI:** SQL, Google BigQuery, Power BI, Tableau, Advanced Excel (Pivot Tables, Lookups), Exploratory Data Analysis (EDA), KPI Dashboards, MIS Reporting, Statistical Modeling

**AI & Generative AI:** Gemini LLMs, Retrieval-Augmented Generation (RAG), Prompt Engineering, Autonomous AI Agents, Google AI Studio, LLM Integration Strategy

**Programming & Tools:** Python (Pandas, NumPy, Matplotlib), Core Java, TypeScript, React, Streamlit, FastAPI, Git, GitHub CI/CD, Salesforce CRM

**Cloud & Databases:** Google Cloud Platform (Cloud Run, BigQuery, Firestore), Amazon Web Services (EC2, S3, RDS, IAM, VPC), Distributed Systems

## EDUCATION

**Master of Computer Applications (MCA)** — Amity University Jul 2025 – Present | Pursuing

Relevant Subjects: Distributed Systems, Advanced DBMS, Data Structures & Algorithms, Cloud Architectures, Machine Learning & AI

**Post Graduate Diploma in Management (PGDM)** — Institute of Management & Information Science Graduated | Bhubaneswar, India

Specialization: Quantitative Business Analytics, Strategic Financial Management, Market Economics, Sales & Distribution Strategy

**Bachelor of Commerce (B.Com)** — J.R.N. Rajasthan Vidyapeeth University Graduated | India

Core: Corporate Accounting, Business Statistics, Economic Modeling, Commercial Contracts & Law, Business Mathematics

## KEY CERTIFICATIONS & CREDENTIALS

**Oracle:** Agentic AI Certified Foundations Associate (ID: 330350216AAI26OFA)

**Google Cloud:** The Basics of Google Cloud Compute Skill Badge

**Anthropic:** Claude 101 Certification (ID: 7yiy97wnu58o)

**OneRoadmap:** Excel Certification (ID: CERT-536F4B9F)

**Coursera:** Marketing Analytics (ID: E58C37P3BFQ3) • Customer Analytics (ID: WRUELYD2V6BP)

**Cisco:** Introduction to Cybersecurity

**Google Cloud:** Configure Service Accounts & IAM Roles (ID: 28873618)

**Anthropic:** AI Fluency Framework & Foundations (ID: 9hn4e7kttj9r)

**OneRoadmap:** Data Analyst Certification (ID: CERT-F821520B)

**Kennesaw State Univ:** Six Sigma Principles (ID: 7JJSRPCE9FS9)

**Forage / Deloitte / BCG:** Data Analytics & Strategy Consulting Simulations
